

Candy Cane Card

Materials:

8- by 12-inch piece of red card stock

Ruler

Butter knife

1 sheet of Color-Aid paper

Nontoxic white glue

2 6-inch long candy canes

Marker

Instructions:

1. Turn the red card stock into a card by scoring a crisp center fold, place the ruler where the fold will be (making each half 8 by 6 inches) and run the knife along the ruler without cutting the paper. Fold the paper along the score line.
2. Tear the Color-Aid paper into a rectangle to fit on the front of the card. The white will show through along the ripped edges and form a pretty frame. Glue this rectangle onto the card.
3. Glue two candy canes in the center, facing each other to form a heart.
4. Write a message in the center of the candy heart or along the outside.
